PROFITABILITY OR BUST

In this economy, “**business as usual**” has taken on a completely new meaning. Of course, core principals still must exist, i.e., quality, integrity, pride in workmanship, taking care of employees, etc., but the way we play by the numbers has evolved...and so must you.

Taught by one of Utah’s leading Construction accounting firms, **The Leverich Group**, you will learn:

- ✓ Common pitfalls in the business of construction
- ✓ Mining valuable information from your accounting records
- ✓ Knowing your costs – the key to success
- ✓ Bidding to win profit rather than just work
- ✓ Bonding essentials for growth
- ✓ And More...

This is a must for all contractors!

Bring your or send applicable office staff!
